## SHOULD YOU VISIT ALL 4 PARKS?

**Should you visit all 4 Theme Parks?** It depends on your group's interests and the length of your trip.

**Can you visit all 4 Theme Parks in one or two days?** Yes. **Should you?** Probably not.

Here's why...

If you truly want to experience what each park offers I highly recommend that you dedicate at least **one full day** to each park (with or without a midday break). A full week at Walt Disney World is the perfect amount of time to take it all in and also allows you to enjoy a few fun rest days at your Resort. However, if you are planning a shorter trip and want to experience the highlights of each park then there are options that are right for you too! While each theme park has its own unique features there may be one or two that fit your overall interests over the others.

**Therefore, first, you will need to determine which Parks you want to visit....**

The overview above should help determine which parks are of most interest to your group!
